

VOTE ELEANOR FOR TOUR

About me:

- German and Business student coming off the back of a year abroad so I have discovered myself successfully (#itsthejourneynotthedestination)
- I am a skier, but impartial to a boarder every now and then if he has good chat...or can do a flip (disclaim)
- Big fan of the old organisation skills ('disorganised fun'? Never heard of it, mate)
- DiD YoU KnOW I wOn ColDeST BiTCh At TwO SEaSoNs 2017?

What can I bring to the role?

- Experience. Been on 5 tours and counting.
- Was on exec for a year so I am aware of the tendering process, exec life in general and how NUCO and WL operate
- Organised multiple events for snow, ranging from small training to BUDS
- PASSION

Perfecting that 'now do a funny one' pose...

Proof I can put skis on, crucial for what everyone does on tour which is defo ski...right?

Just being a big bloody legend...

Sorry if this doesn't make you laugh but tour is no laughing matter. To ensure that fun is had, tour has to be well organised and slick. I, more than anyone, understand this need.

Poorly organised fun = no fun at all

Why tour?

- Been on 5 tours - obviously I fucking love TOUR
- For many Warwick students, their only contact with snow will be through tour. It is crucial that it is well organised so as to reflect both well on the club and the snowsports world we all love so dearly. My passion for both the club and tour means going for the role is a no brainer

Aims

- Provide at least two affordable (base price under £400) tours to sound resorts with a phat social calendar, suitable no matter what level of competence or style you have on the slopes
- Maintain good relationship with tour operators but hold them accountable to the contract
- Obscene levels of creative promo starting in summer - I want flyers and posters raining down. I am talking an avalanche level (shit puns not included with flyers). More creative promo to get people to engage with tour - challenges for example
- Potential launch night- avalanche very much feels like just a freshers event rather than an event connected to tour promo so I want to work with socials to either strengthen tour promo at avalanche or come up with a whole new launch night
- Look into NUCO's summer trip
- Work with captains to find a way to combine lessons with tour promo - dispelling the idea that you already need to be able to ski/board to go on tour
