N

I'm passionate about this club and I want to ensure its continued success for all you lovely sesh gremlins. You all know that I'm an approachable and friendly person who will be a welcoming face to new members.

I'll do more than ever before to support our charities. To do this, I'll launch a Charity Pool Championship™ because who doesn't love sinking some pool and some pints all in the name of charity.

BIGGER TOUR = BETTER TOUR

Next year I want to take as many WARRIORS on tour as possible and following the highly successful marketing campaigns for tour over the last couple of years and the university's ever growing student population (aka more potential TOUR WARRIORS) we're in an ideal position to lobby the SU to allow us to open up more places for tour.

Problem solver, innovator, skier

I'm great with working with others because I'm organised, flexible and understand the importance of communication. I recognise that one of the key responsibilities of the VP is to co-ordinate the rest of the committee. As part of this, I plan to utilise new tools to streamline communication amongst the exec.

I'm v. ORGANISED (organised fun is the best fun)

The determination I'll show when doing the club's admin

SYNERGY!

Highly photogenic - took third place in the highly competitive Exotic Picture Competition

I have experience organising large events for students; last year I was part of the Engineering Society Conference Team that delivered "Journey - To a Sustainable Future". I showed leadership in several planning meetings and was personally responsible for outreach with other universities.

Good at sending emails
