

# Owen's Captain Manifesto

---

- I will work with the treasurer to ensure training is available at an affordable price for the racing and freestyle teams all year round and I will source more race team sponsorship to fund events
- I will improve recruitment for the race teams by advertising our King's victories and advertising to tour members more widely to try and engage more good skiers who haven't explored dry slope skiing
- I will offer more training at practice sessions while also offering free flowing practice
- I will communicate with the organisers of racing events to try and allow more free practice before the race starts in a similar manner to Kings
- I will organise team meals before training and competitions
