

SOPHIE (aka Snowphie) FOR CAPTAIN

About meee :P

- I am a second-year Software Engineer (so I really need snow to compensate for my very dry degree XD)
- I LOVE SNOW!! - I was basically born skiing (I mean I wasn't, but you get the point) I've been skiing every year since I was 2 apart from 2020 (F U COVID)
- I also love meeting new people
- I am a pretty organised person
- I did a ski season so I can answer any question someone might have about skiing or snowboarding:)

Look at that STYLE tho

Why I want to be your Captain <3

- I have a passion for skiing, and I am really excited to get as many people as possible involved in training sessions and racing.
- Also, Snow is 10000% the BEST society on campus and it would be such an honour to be there to help the new fresh realise their *snow potential*
- I want to make sure everyone and anyone can feel comfortable joining the club even if they have never seen snow or if they just haven't been in a while
- I am great at communication and I think I could do a really good job at making sure all events and sessions run smoothly
- I am really excited to get involved with the racing to create a team environment and to encourage newcomers to racing (just like me) to get involved

What I will be doing as your Captain ;)

- Doing all the organising of training sessions and competitions as well transport
- Making sure all your equipment is in tip top shape
- I've got some exciting new ideas!!
 - To encourage the usage of the freestyle sessions I want to organise a trip to an indoor freestyle training centre with a foam pit to build people's confidence with jumps (I'm too scared to do jumps atm) or learn new tricks.
 - I would also like to introduce intermediate ski/snowboard lessons to help people who have been skiing a few times but don't feel confident enough to join the freestyle sessions and need a little refresh.
 - I would like to set up a slalom lesson for people who haven't done it before to discover it and hopefully join the team!!
- Work closely with all the exec and make sure we have the BEST YEAR EVER!!!

I cannot express how excited I am to meet all the people I haven't had a chance to meet this year!!
